SOURCE [redacted]

An especially large number of tank cars loaded with crude oil was recently observed coming from Czechoslovakia. Tank car arrivals were so numerous, the SAG Hydrogenation Plant in Leuna could not meet its unloading schedule. Between four and eight trains were continually waiting to be unloaded. For this reason the general manager requested the President of the Railroad Administration to call upon the trade unions and party organization for assistance in order to speed unloading operations. The president of the Railroad Administration in Halle replied, however, that he could not comply with this request.

25X1A [redacted] Comment. According to a previous report, 300,000 tons of crude oil from Zistersdorf were scheduled to be hydrogenated in the Leuna Plant in 1953. (Report [redacted] 25X1A
